# Calligraphy

is an art that just about anyone can do. All you need is a pen and paper, and you're ready to do calligraphy! Indeed, it requires very few materials - you don't need very much space - and, since you can probably write anyway, you already know the basics!

Calligraphy is an art form in which patience and attention to detail are more important than artistic talent. That means you don't have to be an "artist" to be good at calligraphy!

Calligraphy is a whole lot of fun and can be enjoyed by young and old alike. It is one of the most enjoyable skills that a person can acquire. In short, calligraphy is really FUN!

There are some wonderfully gifted calligraphers (see inspirations in workbook) whose work can inspire us to strive for excellence. However, no one should ever look at work of this caliber and conclude that there is no room for amateurs. Remember, in the end, we are obligated to please just one critic - ourselves.

## AS A CAREER

There are a lot of ways that people can use their calligraphy. What's more, you'll have the opportunity to use your calligraphy skills every time you write! Calligraphy is a fun hobby, a great business, and a creative art. The relevance of calligraphy lies in the human need for expression, through mark making, symbols, designing, drawing, painting and crafting. Calligraphy can be both a delight to the eye and an inspiration to the spirit. In our technological age, the appreciation for the art of calligraphy has grown incredibly. It is not a contemporary art form as it existed way back in 200BC where calligraphy was found on palm leaves, stones, wood, sand and manuscripts. The mystical & adventurous world of calligraphy exists in various formats like Islamic, European, Chinese, Japanese, Korean, Indian etc. Though it takes a lot of patience to celebrate the magic of written word, but it's worth it. It is one of the most enjoyable skills that a person can acquire and become a Calligrapher/ calligraphy instructor/ Freelance Artist/ Full time Artist and much more.

Keeping all this in mind, we have compiled a series of five workbooks to let you immerse in the joyful world of elegant & graceful letters. Step to step guide and instructions will let you get innovative & creative with form, shapes & sizes and you'd actually be able to see the dance of letters on paper.

In short, calligraphy is really FUN! This start, when followed with perseverance, will take you to your cherished goal – your goal to learn calligraphy to your satisfaction.

So have fun with our workbooks & write beautifully like an artist .

Good Luck!

Have a beautiful day with beautiful writing.
